NO FIRE ZONE

THE KILLING FIELDS OF SRI LANKA

No Fire Zone is a 96 minute Emmy nominated feature documentary which tells the story of the final months of the 26-year long Sri Lankan civil war. Made in 2013 it was updated & expanded in 2015 with important new evidence.

The story is told by the people who lived through the war - & through some of the most dramatic & disturbing video evidence ever seen. This footage - direct evidence of war crimes, summary execution, torture & sexual violence - was recorded by both the victims & perpetrators on mobile phones & small cameras during the final 138 days of hell which form the film's central narrative.

The product of a 3 year investigation, it is credited with playing a key role in convincing the UN Human Rights Council to launch a major international war crimes investigation into the events in the closing stages of the war. Not just an agenda setting investigation, it is also a cinematic tour de force – a stunning & disturbing film in its own right.
